

FL Phosphate Briefing

Brad Jackson to: Freda Lockhart

02/03/2011 06:03 PM

From: Brad Jackson/R4/USEPA/US

To: "Freda Lockhart" <Lockhart.Freda@epamail.epa.gov>

Freda:

I guess you noticed that the briefing for Franklin was kind of rushed. I know I said it the wrong way, but what did you think about the proposal to just inform the public and officials about the survey via factsheet and public notice?

Concurrently we would develop a Community Engagement Plan to relay the findings and engage communities where there are elevated levels.

Also, is there anything I should say about the potential EJ area map other than explain it?

Thanks, Brad
